

## Catalog Search Equivalent Keywords

When searching through the Catalog for a state term contract item, users may use a keyword search, an advanced search, or browse through the catalogs by drilling down through the various categories and subcategories. If a keyword search is used, selected keywords have associated equivalent words that when entered, the search results will return catalog line items that contain the keyword and other catalog line items that contain equivalent descriptions. For example, if the user enters the keyword 'ammo', the search results will return catalog line items that contain: ammunition, bullet, or shell in its description. Refer to the tables below for a complete listing of MyFloridaMarketPlace equivalent keywords.
