**It explains the options you have under Medicare prescription drug coverage,
and can help you decide whether or not you want to enroll**

Medicare prescription drug coverage (Medicare Part D) became available in 2006 to everyone with Medicare through Medicare prescription drug plans and Medicare Advantage Plans that offer prescription drug coverage.

All approved Medicare prescription drug plans must offer a minimum standard level of coverage set by Medicare. Some plans may offer more coverage than required. As such, premiums for Medicare Part D plans vary and all plans should be researched carefully.

The State of Florida Department of Management Services has determined that the prescription drug coverage offered by the State Employees' Health Insurance Program (State Health Program) is, on average, expected to pay out as much as the standard Medicare prescription drug coverage will pay and is considered Creditable Coverage.

If you do decide to enroll in a Medicare prescription drug plan and drop your State Health Program coverage, be aware that you and your dependents will be dropping your hospital, medical and prescription drug coverage. **If you choose to drop your State Health Program coverage, you will NOT be able to enroll back in the State Health Program unless a special Open Enrollment period for non-enrolled State of Florida retirees is mandated by the Florida Legislature.**

If you enroll in a Medicare prescription drug plan and you DO NOT drop your State Health Program coverage, you and your eligible dependents will still be eligible to receive all of your current health and prescriptions drugs benefits.

If you drop or lose your coverage with the State Health Program and don't enroll in Medicare prescription drug coverage after your current coverage ends, you may pay more (a penalty) to enroll in Medicare prescription drug coverage later. Additionally, if you go 63 days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium will go up at least 1% per month for every month that you did not have that coverage and you may have to wait until the following November to enroll.
