46	REDM	section 272.16, Florida Statutes	NO			Rulemaking will be necessary in the future. It was determined in a previous rulemaking process that it would be imperative to procure an in-depth study/research on parking to ensure the effective utilization of all available space to minimize waste and to determine the most efficient, expeditious and economical methods of accomplishing a desirable and equitable outcome for all users. The study has been funded and results will be utilized for future rulemaking.
