Executive Summary

The State Energy Management Plan (SEMP) was developed by the Department of Management Services (DMS) to provide a comprehensive system to manage and reduce non-renewable energy consumption and costs in state-owned and metered state-leased facilities. The State Energy Management Plan applies to each executive-branch department or agency of the State of Florida.

The SEMF applies to all state-owned and private-lease facilities for which the agency is contractually obligated to pay for utility consumption based on the utility provider's monthly statement or the facility's sub-meter. The purpose of this report is to summarize energy data submissions provided by each agency for fiscal year 2016-17.

For fiscal year 2016-17, 20 agencies reported energy data for a total of 46.2 million gross square feet of space. The total energy consumption reported for this period translates to a total annual cost of \$110 million.

This report contains facility-specific energy consumption and cost data for each state agency, including performance metrics and benchmark comparisons.

The state has acquired facility-specific energy consumption and cost data that can, and should, be used to prioritize energy conservation efforts and capital improvements. This report will assist DMS and other stakeholders in the process of evaluating the energy conservation programs of each agency.

All numbers are subject to minor variations correlated to rounding.

Overview

This report summarizes the SEMF submissions provided by each agency for fiscal year 2016-17. The metrics provided include the total agency-reported gross square footage, annual energy consumption (AEC), energy performance index (EPI), annual utility cost, and cost utilization index (CUI).

The State of Florida is comprised of 21 state agencies that own facilities encompassing approximately 46.2 million gross square feet of space. The combined AEC is approximately 3.7 billion kBTU (thousand British thermal units), at a combined annual cost of approximately \$110 million. Table 1 provides a summary of the state's energy performance metrics for each year of SEMF submissions.

Table 1: State of Florida – Energy Performance Metrics

Fiscal Year (FY)	Gross Square Footage (GSF)	Annual Energy Consumption (AEC) [kBTU]	Energy Performance Index (EPI) [kBTU/sf/yr.]	Annual Utility Cost (AUC) [\$ /yr.]	Cost Utilization Index (CUI) [\$ /sf/yr.]
FY 2012-13	46,869,556	4,180,908,545	89.2	\$110,371,992.88	\$2.35
FY 2013-14	48,658,296	3,570,724,059	73.4	\$117,092,115.53	\$2.41
FY 2014-15	47,947,983	3,853,514,020	80.4	\$113,594,247.22	\$2.37
FY 2015-16	45,820,611	3,407,807,671	74.4	\$111,371,328.88	\$2.43
FY 2016-17	46,195,003	3,664,904,210	79.3	\$109,583,395.35	\$2.37

Figures 1-4 provide five-year comparisons for the state. Green lines represent positive trends, indicating improved performance or reduced costs. Red lines represent negative trends, indicating reduced performance or increased costs.

Figure 1: State of Florida
Annual Energy Consumption (AEC)
5-Year Comparison

Figure 2: State of Florida
Annual Utility Cost (AUC)
5-Year Comparison

Figure 3: State of Florida
Energy Performance Index (EPI)
5-Year Comparison

Figure 4: State of Florida
Cost Utilization Index (CUI)
5-Year Comparison

Figures 5-8 provide five-year comparisons for the state by agency. Bars in red indicate agencies whose energy consumption and costs were above the state's calculated EPI and CUI. These increases should be evaluated further to determine ways to reduce consumption and costs.

Figure 5: AEC by Agency, 5-Year Comparison
Total AEC = 3,664,904,210 kBTU

Figure 6: AUC by Agency, 5-Year Comparison
State of Florida AUC = \$109,583,395.35

Figure 7: EPI by Agency, 5-Year Comparison
State of Florida EPI = 79.3

Figure 8: CUI by Agency, 5-Year Comparison
State of Florida CUI = \$2.37

Performance Indices & Benchmarking

This report compares each agency's energy performance to the United States Department of Energy's 2012 Commercial Building Energy Consumption Survey (CBECS), which is the latest CBECS data available and serves as the foundation of the federal Energy Star Program. The performance metrics utilized in this analysis are the EPI and the CUI. The energy performance index, measured in kBtu per square foot per year (kBtu/sf/yr.), is the ratio of total energy consumed to the total square footage over the course of one full year. The CUI, measured in dollars per square foot per year (\$/sf/yr.), is the ratio of total energy cost to the total square footage over the course of one full year.

For comparison of individual agency properties to national benchmarks, Table 2 provides EPIs and CUIs based on region, square footage, and principal facility activity (occupancy type). Because of the facility-specific energy data collected in the SEMP, the state will be able to benchmark individual facilities' benchmarks to national statistics, such as those provided in Table 2.

Table 2: CBECS Building Classification EPIs & CUIs

Classification	Energy Performance Index (EPI) [kBtu/sf/yr.]	Cost Utilization Index (CUI) [\$/sf/yr.]
<i>Census Region & Division:</i>		
South Atlantic	75.5	\$1.74
<i>Gross Square Footage:</i>		
1,001-5,000	89.9	\$2.03
5,001-10,000	72.6	\$1.60
10,001-25,000	62.1	\$1.41
25,001-50,000	69.1	\$1.45
50,001-100,000	76.7	\$1.62
100,001-200,000	83.4	\$1.76
200,001-500,000	95.7	\$1.95
Over 500,000	108.4	\$2.26
<i>Principal Building Activity:</i>		
Education	68.8	\$1.37
Food Sales	209.3	\$4.93
Food Service	282.6	\$5.47
Health Care	172.8	\$3.15
Inpatient	231.3	\$3.95
Outpatient	94.9	\$2.08
Lodging	96.8	\$1.89
Mercantile	89.0	\$2.00
Retail (Other Than Mall)	66.9	\$1.65
Enclosed and strip malls	109.3	\$2.33
Office	77.8	\$1.93
Public Assembly	86.3	\$1.84
Public Order & Safety	92.4	\$1.92
Religious Worship	38.0	\$0.73
Service	58.7	\$1.21
Warehouses & Storage	32.8	\$0.74
Other	142.9	\$2.98
Vacant	12.6	\$0.30

Source: U.S. Department of Energy's Commercial Building Energy Consumption Survey (2012)

The state's overall EPI is 79.3 (kBtu/sf/yr.) Figure 9 illustrates the EPI for each of the agencies compared to the state's overall EPI, as well as the Office EPI of 77.8 and the Inpatient EPI of 231.3, according to the CBECS. The state's overall CUI is \$2.37 (\$/sf/yr.). Figure 10 illustrates the CUI for each of the 21 agencies compared to the state's overall CUI, as well as the Office CUI of \$1.93 and the Inpatient CUI of \$3.95, according to the CBECS.

Figure 9: FY2016-17 Energy Performance Index (EPI) by Agency, FY 2016-17
State of Florida EPI = 79.3; CBECS Office EPI = 77.8; CBECS Inpatient EPI = 231.3

Figure 10: FY 2016-17 Cost Utilization Index (CUI), By Agency, FY 2016-17
State of Florida CUI = \$2.37; CBECS Office CUI = \$1.93; CBECS Inpatient CUI = \$3.95

The purpose of the additional CBECS data is to demonstrate that different facility types have substantially different levels of energy intensity. Although the EPI of 77.8 and CUI of \$1.93 may be considered a reasonable benchmark for office space and other space types of similar occupancies, it would not be an appropriate benchmark for hospitals and correctional facilities because of occupancy levels, complexity, operating schedules, and other characteristics. The EPI of 231.3 and CUI of \$3.95 would be a more reasonable benchmark for these facility types. AHCA has no facilities requiring SEMP submission for FY 2016-17.

Agency Summaries

This section of the report provides the key metrics for each agency, as provided in Table 3. On subsequent pages, the performance of each agency is compared over the five years (fiscal year 2012-13 to fiscal year 2016-17) of SEMP data collection.

Table 3: Agency Performance Metrics, FY 2016-17

Agency	Gross Square Footage (GSF) [sf]	Annual Energy Consumption (AEC) [kBTU/yr.]	Energy Performance Index (EPI) [kBTU/sf/yr.]	Annual Utility Cost (AUC) [\$ /yr.]	Cost Utilization Index (CUI) [\$ /sf/yr.]

*AHCA has no facilities requiring SEMP submission for fiscal year 2016-17.

The 20 reporting agencies encompassed approximately 46.2 million square feet of space in fiscal year 2016-17. Figure 11 illustrates each agency's percentage.

Figure 11: Gross Square Footage Distribution

The 20 reporting agencies consumed roughly 3.7 billion kBTU of energy during fiscal year 2016-17, at a cost of approximately \$110 million. Figures 12 and 13 illustrate each agency's percentage.

Figure 12: Energy Consumption Distribution

Figure 13: Utility Cost Distribution

Agency for Health Care Administration (AHCA)

The Agency for Health Care Administration (AHCA) reported as follows. Table 4 provides the key metrics. AHCA has no facilities requiring SEMP submission for fiscal year 2016-17.

Table 4: AHCA Metrics, 5-Year Comparison

Fiscal Year (FY)	Gross Square Footage (GSF)	Annual Energy Consumption (AEC) [kBTU]	Energy Performance Index (EPI) [kBTU/sf/yr.]	Annual Utility Cost (AUC) [\$ /yr.]	Cost Utilization Index (CUI) [\$ /sf/yr.]

Figure 44: DOE-EPI, 5-Year Comparison

Figure 45: DOE-CUI, 5-Year Comparison

Florida Department of Environmental Protection (DEP)

The Florida Department of Environmental Protection (DEP) reported as follows. Table 12 provides the key metrics.

Table 12: DEP Metrics, 5-Year Comparison

Fiscal Year (FY)	Gross Square Footage (GSF)	Annual Energy Consumption (AEC) [kBTU]	Energy Performance Index (EPI) [kBTU/sf/yr.]	Annual Utility Cost (AUC) [\$ /yr.]	Cost Utilization Index (CUI) [\$ /sf/yr.]
FY2012-13	2,588,131	80,380,300	31.1	\$5,353,147.62	\$2.07
FY2013-14	3,492,786	103,021,040	29.5	\$17,034,830.02	\$4.88
FY2014-15	3,560,437	92,363,552	25.9	\$6,321,655.93	\$1.78
FY2015-16	3,513,143	89,511,699	25.5	\$5,647,843.61	\$1.61
FY2016-17	3,571,869	101,116,859	28.3	\$5,725,804.09	\$1.60

Figures 46-49 provide five-year comparisons for the agency. Because of incomplete data during fiscal year 2012-13 and changes in reporting requirements, trend lines are not provided, as they would not accurately represent agency performance over the three years. GSF pulled from SOLARIS for FY 13-14, 14-15, 15-16 and 16-17.

Figure 46: DEP-AEC, 5-Year Comparison

Figure 97: FWCC-CUI, 5-Year Comparison

Conclusions

In conclusion, the State of Florida is trending in a positive direction by reducing utility consumption and costs within its properties over time.

Recommendations

Agencies should continue to monitor their energy consumption and use this data as a guide for continual improvement in energy management.

The Department of Management Services has prepared an Energy Strategy Flowchart to assist with preliminary identification of such opportunities, with supporting documentation (Request for Qualifications, Model Shared Savings Proposal Agreement, and Model Shared Savings Contract) to assist with implementation.

Appendix

The appendix contains detailed metrics on energy consumption, utility costs, energy performance index, and cost utilization index as reported by the agencies for fiscal year 2016-17.

1. Agency for Health Care Administration (AHCA)	32
2. Agency for Persons with Disabilities (APD).....	32
3. Florida Department of Agriculture & Consumer Services (DACS)	33
