The Business Objects Quiz
How Well Do You Know What's Changing?
September 27, 2018

---

1. **What does the term "BOBJ" stand for?**

   A. Bob Johnson, who originally designed the first report querying software.
   B. It is the historical term used to describe the Business Objects software. *(circled)*
   C. Both A and B above.
   D. None of the above.

2. **What are the primary People First major system projects left to be implemented after the State of Florida People First Business Objects (BOBJ) implementation?**

   A. There are no additional major system projects to implement after BOBJ.
   B. Learning Management System (planned for Fall 2019).
   C. Onboarding system (planned for Fall 2020).
   D. Both B and C above. *(circled)*

3. **Some of the benefits of transitioning from the existing outdated and unsupported reporting tool to SAP Business Objects is that it:**

   A. Eliminates the need for ad hoc users to maintain Impromptu on their computer.
   B. Leverages the latest SAP reporting tool.
   C. Consolidates all reports into one seamless user experience for pre-built / canned reports.
   D. All of the above. *(circled)*

4. **What is meant by "pre-built / canned" reports?**

   A. They are fully formatted HR reports in the People First system that give the user a number of filter options to select and are "print-ready". *(circled)*
   B. HR reports that can be run "as is" and give the user **no** options to filter the data or select various criteria.
   C. HR reports that have not been developed yet, where the user has to start from scratch.
   D. None of the above.

5. **Finish the following sentence: "A pre-built or canned report is…"**

    A. …either a data warehouse report or SAP report, and these reports will be grouped into various functional areas or categories.
    B. …only a data warehouse report that is mixed in with all other types of reports.
    C. …only a SAP report that is mixed in with all other types of reports.
    D. …only available to HR staff.

6. **How many different pre-built / canned report functional areas or categories will be displayed on the Reports landing page for the user to choose from?**

    A. 9
    B. 6
    C. 1
    D. 4

7. **In terms of the data that is presented, what is the primary difference between a data warehouse report and a SAP report?**

    A. A data warehouse report pulls data from the data warehouse and the data is at least one day old.
    B. A SAP report pulls "real-time" data from the SAP transactional database.
    C. Both A and B above.
    D. None of the above.

8. **What is the recommended training materials that will be available to users to learn more about how to run a pre-built or canned report?**

    A. Running Reports in People First instructional guide.
    B. An online video titled "How to Run Reports in People First".
    C. The History of BOBJ.
    D. Both A and B above.

9. **For the ad hoc data warehouse user, access to the data warehouse will be:**

    A. A link titled "Ad Hoc Reporting", located in the Resources section of the Reports landing page.
    B. Through a user's Impromptu software for a **limited** time-period.
    C. Both A and B above.
    D. None of the above.

10. **For the ad hoc data warehouse user, what does the DMS People First Division recommend in terms of the Impromptu software that has been used in the past to query data from the People First data warehouse?**

    A. Continue to use Impromptu software forever.

    B. Move to BOBJ on Day 1 or as soon as possible since all DMS support will be directed to BOBJ going forward and the Impromptu catalog will no longer be updated.

    C. No strong recommendation one way or another.

    D. Both A and C.

11. **What is true about ad hoc data warehouse users getting security access to the data warehouse?**

    A. Ad hoc users don't have to do anything if they already had access to the data warehouse in the past.

    B. They just have to call the DMS People First Division data warehouse team and request access.

    C. They just have their HR office select the data warehouse checkbox on the position side of People First.

    D. A new authorization form for all existing and future data warehouse users must be submitted before being given access to the data warehouse beginning 10/29/18.

12. **What is true about the DBLink (access for agencies to pull large amounts of data into their internal systems)?**

    A. It is the link to the Wikipedia site of D.B. Cooper who hijacked an airplane in 1971.

    B. No system-related changes planned.

    C. Re-authorization is required by completing the People First Warehouse DBLINK Authorization Form prior to 10/29/18.

    D. Both B and C above.

13. **What is true about the agency ad hoc user training that occurred from July 23 through August 23?**

      A.   91 employees were trained, representing 30 agencies.

      B.   Training consisted of 3-day sessions.

      C.   Ad hoc training materials from the 3-day sessions have been posted on the DMS People First Division dedicated BOBJ page.

      (D.)   All of the above.

14. **Why is it important for agencies to complete the Agency "Go-Live" Readiness Checklist and provide to the DMS People First Division by October 12, 2018?**

      A.   Receipt of the checklist from all agencies represents to the Department that all agencies have completed (or will have completed by go-live) all agency readiness activities prior to deployment.

      B.   Receipt of the checklist from all agencies signals sign-off of Stage Gate 1 for the Department, so that the project team can continue move forward to the next project implementation Stage Gates.

      C.   It is not really that important and agencies should do whatever they please.

      (D.)   Both A and B above.

15. **The BOBJ deployment date is:**

      A.   October 1, 2018.

      (B.)   October 29, 2018.

      C.   December 31, 2018.

      D.   October 1, 2019.
