Medicare Advantage & Prescription Drug (MA-PD) Plans

The Medicare Advantage & Prescription Drug (MA-PD) plans offer benefits tailored to seniors (65 and older) at a lower cost than our secondary payor plans.

Along with lower monthly premiums, MA-PD plans offer:

- defined out-of-pocket costs for preventative care, specialist visits, and home health services;
- expanded benefits for routine vision, hearing, and dental services; and
- access to fitness programs and caregiver support.

For more information, sign up for the monthly MA-PD Webinar Series by capturing the QR Code to the right, using the camera on your phone.
