

People First

System Enhancement: 03-31-07 Release Summary

March 27, 2007

ID Number: SE 14

Suggested Audience:
Agency Personnel Offices

Name	Description
0538 – IVR Routing for A, H and S Roles	The People First Interactive Voice Response (IVR) system will allow A, H, and S role code users to select the functional area to be routed to from a menu of options, instead of defaulting them directly to the HR Administration group. Specifically, once implemented, A, H, and S role code users will be able to select the functional area they need to contact, instead of having to go through the HR Administration group and then being routed.
0556 – Update Retiree Package for 2007	Update the premium chart included as part of the retiree package to reflect the premium changes that become effective May 1, 2007.
5325 – HSA Application Replacement	Replacing the following documents available through the website with new updated versions. <ul style="list-style-type: none">➤ FSA Reimbursement Claims Forms/Instructions➤ HSA application and Disclosure Package
5316 – W-4 Outbound Interface Improvements to avoid errors	Correct errors in the W-4 interface process from People First to the Bureau of State Payrolls (BOSP) to ensure that W-4 changes are provided for both active and former (terminated) employees when the changes are made in People First. In addition, this fix will update the logic for the W-4 interface to ensure the correct OLO and Organization Code are sent to BOSP.
4515 – Over Age Grandchildren – program defect	System fix to remove grandchildren from participants' benefits plans after dependent has reached 18 months of age.
