

Type: System Enhancements	ID Number: SE 56
Date: July 9, 2009	Subject: Salary Detail Views within the Data Warehouse

Suggested Audience

Data Warehouse Users

Description of Issue

The "SALARY_DETAIL_ACTIVE" view in the Data Warehouse was missing records from May 2004 through February 2007.

Summary

1. Effective July 18, 2009, we will have re-loaded the Salary Detail files provided by the Bureau of State Payrolls. A new materialized view titled "SALARY_DETAIL_2004_2007" was created. This static view will contain historical records with a warrant or cancellation date of May 2004 through Dec 31, 2007. The current view "SALARY_DETAIL_ACTIVE_2" will have records with a warrant or cancellation date of January 1, 2008 forward.
2. The view "F13_SALARY_DETAIL_ACTIVE" will be removed.

How does this impact me?

1. Internal agency programs should be reviewed to see if these changes affect them. If so, those programs will need to be modified.
2. Impromptu reports may need to be modified if querying data with a warrant or cancellation date prior to 1/1/08.

What do I need to do?

1. Notify your data warehouse users and information technology staff of this upcoming change. They will need to identify their internal programs that extract historical salary detail data and modify the program to use the new static view "SALARY_DETAIL_2004_2007".
2. A new data warehouse catalog will be made available by close of business July 20, 2009. You will need to download this catalog.

If you have any questions related to the Salary Detail Views within the Data Warehouse, please contact the data warehouse team at PeopleFirstDataWarehous@dms.myflorida.com.
