#### □ SECTION B: Third-Party Software Licensing

##### **Creativity & Productivity Tools**

###### **Adobe Creative Suite 4**

Adobe Creative Suite 4 takes full advantage of the super fast, multi-core Intel processors in every new Mac. It offers all-new versions of your most essential applications. Two types of transactional licenses are available from Apple for Adobe Creative Suite 4: Site Licenses for K-12 and Volume Licenses. **Media kits are sold separately.**

Adobe **Transactional License Program** products are setup with point-based tier pricing, not volume-based tier pricing. The more points purchased on a single transaction, the greater the point value of the transaction, resulting in a lower price paid for each license purchased on that transaction.

**The total point value for each transaction determines the pricing tier for each product on that specific transaction:**

### Third-Party Products: Software Licensing and Hardware Price List

#### September 8, 2009

Total point value for a single transaction, 1-999: ALL products on transaction must be purchased at Tier 1 pricing.  
 Total point value for a single transaction, 1,000 - 4,999: ALL products on transaction must be purchased at Tier 2 pricing.  
 Total point value for a single transaction, 5,000+: ALL products on transaction must be purchased at Tier 3 pricing.

*NOTE: Each transaction is independent from every other transaction. Points may not be accumulated over multiple transactions.*

#### Adobe Creative Suite 4 – Site Licensing for K-12 Schools

Affordable site licenses are available for integrated editions of Adobe Creative Suite 4 containing the latest graphic design, web design and development, and film and video software used by professionals around the world. With Adobe Creative Suite 4 software, students can learn valuable skills to help them thrive in postsecondary education and future careers.

All Adobe Creative Suite 4 K-12 School Site Licenses include software licenses with installation rights for up to 500 school-owned or school-leased computers regardless of school enrollment size. Additionally, site licenses include teacher home-use rights for up to 50 teachers. When purchasing K-12 School Site Licenses, customers also need to purchase at least one media kit. The media kit includes K-12 School Site License End-User License Agreement, a Digital Careers Teaching Resources DVD and a DVD with video tutorials.

#### **FileMaker**

FileMaker® database software helps schools in many aspects of collecting, managing and reporting on student and administrative data. More than 10,000 K-12 schools use FileMaker in their data-driven decision-making processes to achieve greater operational efficiency, easily comply with federal and state reporting requirements, advance teacher development and monitor student performance.

Licensing for FileMaker - please review licensing policies for Education Volume License Agreements (EVLA); Maintenance for EVLA; Education Site License Agreement (ESLA) and Maintenance for ESLA. Those products delivered Electronically are denoted with ESD.

All FileMaker Licensing is delivered via electronic download, separate media is not required. Upon purchase, the customer will receive the following: 1) A link to the download of the PDF license certificate. This certificate will contain the license keys for product installation and therefore will need to be printed before installing the product and 2) A link to the software download.

Additional Electronic License Delivery information can be found at: <http://www.FileMaker.com/purchase/store/downloads.html>

Note: An upgrade from Server 8 or 9 to Server 10 Advanced would require an upgrade to Server 10, and then an upgrade to Server 10 Advanced.

#### Education Volume License Agreement (EVLA)

The minimum initial order for a EVLA is 10 seats of software licenses. Customers can mix & match any FileMaker software products, as well as new and upgrade seats to reach the minimum volume requirement for each tier. Maintenance does not apply towards the 10 seat minimum.

One year of Maintenance is automatically included with all licensing purchases of FileMaker Pro, FileMaker Pro Advanced, FileMaker Server and FileMaker Server Advanced. Only FileMaker Pro, FileMaker Pro Upgrade and FileMaker Pro Maintenance are available on a per-seat, multi-tier pricing discount structure. To add-on new or upgrade copies of FileMaker products to an existing license agreement, customers must have a FileMaker 8 or newer VLA. There is no minimum purchase quantity required for add-on products, and they count towards the FileMaker Pro minimum volume requirements for each tier. The current VLA number must accompany the order if the total number of units is less than 10. License keys for product installation are listed on the volume license certificate.

#### **Maintenance for EVLA**

EVLA Maintenance customers must renew their Maintenance prior to its expiration to take advantage of the regular Maintenance price. Once renewed, the new Maintenance expiration date will be one or two years from the original Maintenance renewal expiration date (depending on the renewal SKU purchased).

Once the Maintenance expires, an "Expired" Maintenance price is available for EVLA customers who want to renew the expired Maintenance contract. The new

Maintenance expiration date will be set to one or two years from the date of the Expired Maintenance order (depending on the renewal SKU purchased).

If a customer's Maintenance expires and FileMaker announces the availability of an upgrade, the customer is no longer eligible for the Expired Maintenance price.

The customer must purchase the product upgrade or (if upgrade version does not qualify) new licenses.

When additional years of Maintenance are added to extend the expiration date of a line item on the same purchase, the seats extending the Maintenance expiration date do not count towards tier levels, minimum initial order quantity, or product discount levels.

Customers ordering Maintenance Renewal for existing licenses and new licenses (which include Maintenance) at the same time, must submit two separate orders if the Maintenance renewal date for the existing licenses is not in the same billing quarter as the new licenses.

Customers who wish to renew Maintenance on multiple seats with multiple end dates must submit separate orders if the renewal dates are not in the same billing quarter.

#### EDUCATION SITE LICENSE AGREEMENT (ESLA)

FileMaker ESLA minimum order quantity is 50 seats. ESLA includes one year of Maintenance.

Price is based on 100% of total seats for a school-wide deployment (as defined by a unique taxpayer ID or EIN number).

The ESLA is a 100% attached Site-wide technology license for all CPU's or Faculty/Staff (which ever is less) in an educational institution or standalone entity. An eligible site is defined as a whole educational institution or stand-alone entity with a unique taxpayer ID number or equivalent. The ESLA contains the current shipping versions of FileMaker Pro, FileMaker Pro Advanced, FileMaker Server, and FileMaker Server Advanced and includes one year of Maintenance for all products. Mid-year reporting is not necessary under the ESLA as long as the total number of seats at a site does not grow more than 10% during the 1 year Maintenance term. Customers will need to pay or true-up on their expanded seats on the renewal date of the agreement. If a customer grows more than 10% during their agreement term, they are required to contact FileMaker to discuss what additional seats need to be purchased, based on their company's growth. License keys for product installation are listed on the volume license certificate.

#### FileMaker BENTO

Bento Volume Licensing qualifications include: The minimum initial order for Bento 2 VLA is 10 seats of software licenses. Bento volume licensing orders cannot be combined with other FileMaker licensing programs and must be on their own PO. Customers cannot combine Bento with other FileMaker software products to reach the minimum volume requirement for each Tier.

Electronic License Delivery: All FileMaker licensing is delivered via electronic download. (separate media purchases are not required) The customer will receive an email with the following: (1) A link to the download of the PDF license certificate. This certificate will contain the license keys for product installation and therefore will need to be printed before installing the product. (2) A link to the software download.

Episode Engine comes in standard or pro version, where the pro version has additional support for broadcast formats including MXF, IMX, GXF, H.264 High Profile and Transport Streams, HDV and all 3GPP formats.

Episode Engine requires one license per machine. NOTE: Flash 8 is now included in the price for both Episode Engine and Episode Engine Pro.

#### Episode Podcast

Episode Podcast adds video and audio format support for Leopard Server's Podcast Producer, providing access to content on any platform or personal device. Addressing a growing need for educators to provide students with anytime, anywhere access to content on mobile and personal devices whether a PC or a Mac user, Episode Podcast allows Podcast Producer to accept any leading input format and repurpose media to all the popular distribution formats, including Windows Media, Flash 8, MP3, 3GPP, VC-1, H.264 and much more. In addition, Episode Podcast provides the possibility to manage the encoding settings for your Podcast Producer workflow.

Episode Podcast comes in standard or pro version, where the pro version has additional format support for the pro video market. Support for Flash 8 is now included in both Episode Podcast and Episode Podcast Pro. Episode Podcast requires a fully configured Podcast Producer setup.

With a single license for Episode Podcast, any machine in a cluster can utilize the Episode Podcast encoding. Each license allows up to four jobs to be executed in parallel. For higher encoding capacity, just add more licenses.

#### What you get with Episode Engine and Episode Podcast

Upon purchase of Episode Engine or Episode Podcast, customers will receive a box that includes a DVD with the software, a software license, and installation instructions. Episode application is also included for managing settings.

#### Telestream Pipeline Encoders

Pipeline is a network-based video capture and playout device for moving SD video and audio in and out of any file-based workflow. Since Pipeline sits on your network, anyone can access it – providing freedom from the hassles, limitations and expense of traditional capture-card solutions on a dedicated workstation. Common network protocols, RS-422 deck control and frame-accurate ingest make Pipeline a smart choice for video capture. Unlike other ingest solutions available on the market, the heavy lifting required to compress baseband feeds into high quality digital files is done on the Pipeline hardware. Pipeline hardware can encode directly into DV, IMX, Apple ProRes SD and MPEG-2 I-frame SD in real time, eliminating the need for software compression on expensive servers. If additional formats are required simply add Episode Engine transcoding servers to meet your needs.

#### What you get with Pipeline

Upon purchase of Pipeline, customers will receive the hardware device and accompanied software applications.

#### **BakBone**

BakBone's NetVault: Backup makes it easy to implement powerful Mac OS X data protection solutions that can handle heterogeneous environments, manage high-capacity, data-intensive applications, and deliver advanced, enterprise-class features. Designed specifically for Apple environments, NetVault: Backup is managed with an intuitive, native Aqua interface, offering incredible ease-of-use and low cost of ownership. Whether protecting digital assets, student records or core IT resources, there is a NetVault: Backup solution designed to fit your needs.

#### BakBone - Education Software Licensing Agreement (ESLA)

NetVault: Backup for Mac OS X is available in two simple server packages: Standard and Enterprise. These packages come pre-configured with a certain number of heterogeneous c (servers), Virtual Tape Library (VTL) capacity, and base number of tape drives/slots supported as defined in the table below. Optional components include additional client, tape slot capacity, plus various application plugins for application level protection. To determine the appropriate backup server package, you will need to obtain from the customer the number (systems) to backup, the number of media (tape) drives they have, the number of tape slots in the tape libraries, the VTL capacity they need, and details on applications they want to

NetVault: Backup Standard is an all-in-one disk-to-disk-to-tape data protection solution designed for Apple mid-sized businesses and Education customers. It offers VTL and tape e: options specific to the NetVault: Backup Standard solution, which may not be used with the NetVault: Backup Enterprise package.

NetVault: Backup Enterprise is an all-in-one disk-to-disk-to-tape data protection solution designed for unlimited scalability, and the needs of larger enterprises and the protection of la media assets. Any add-ons that are not specific to NetVault: Standard may be used by either backup server package, provided any specific capacity limits are not exceeded. If a cust: outgrows NetVault: Backup Standard, they can upgrade to NetVault: Backup Enterprise with a license key change.

If a customer has purchased a previous version of NetVault: Backup Workgroup, Data Center or Enterprise, they can upgrade to the new NetVault: Backup Enterprise Edition for Mac OS X upgrade SKU.

### Higher Education - Research

#### BioTeam

BioTeam's iNquiry provides three key features and benefits:

- 1) Cluster Builder- **Feature:** iNquiry installs and configures the many shared network services necessary to transform a collection of discrete servers into a single, scalable, virtual compute resource. **Benefit:** The automated cluster builder is provided as part of a single double-clickable package installer. What normally consumes man-weeks to man-months of a seasoned UNIX systems administrator's time is reduced to 10 minutes effort.
- 2) Web Portal - **Feature:** A consistent and user extensible web portal graphical user interface to cluster-enabled scientific tools. **Benefit:** Most commonly used scientific data analysis tools have a cryptic UNIX command-line user interface. Many common uses of these tools are compute intensive. iNquiry's web portal provides a consistent and easy to use graphical user interface to these tools and automates their execution upon a scalable cluster architecture for high-throughput or high-performance. User's can easily extend the web portal with their own tools by authoring an XML document that describes the command-line interface of the new tool.
- 3) Informatics Applications - **Feature:** iNquiry is optionally bundled with 150+ commonly used, open-source informatics tools. **Benefit:** Informatics research involves the use of hundreds of applications, each with their own dependencies upon C libraries and Perl modules. iNquiry optionally includes these tools and their dependencies, providing Universal Binaries that execute on both Apple's PowerPC and Intel-based systems, such that users can have their scientific cluster up, running, and providing utility very shortly after assembling the new cluster hardware.
