

**System Enhancement 64: 11/22/10 and 11/27/10 Release Summary**

**Issue Date: November 19, 2010**

**Audience: HR Offices**

Release Item	Description
<b>Direct Deposit Records Updated with Employee Name Change</b> <a href="#">(11/22/10 Release)</a>	Currently, there is a defect when multiple "Name Change" PARs, for different employees, are acted upon one after another. When this occurs, not all the name changes are being sent on the Direct Deposit interface file to the Department of Financial Services. Impacted employees were notified and instructed on how to correct their records. The issue is being corrected with this release.
<b>Acting Upon Multiple PARs on the Same Day</b> <a href="#">(11/22/10 Release)</a>	As part of the July 2010 release, the ability for users to act upon multiple PARs on the same day for the same employee was removed. There was a defect with that release item that is being corrected with this release.
<b>Benefits Auto Distribution Process</b> <a href="#">(11/22/10 Release)</a>	A new process is being implemented that will automatically distribute benefit payments, received through the Wachovia Lockbox, to the applicable plan and coverage period.
<b>Prevent OPS Position from Being Abolished When Employee is Active in Position</b> <a href="#">(11/22/10 Release)</a>	Remove ability to abolish OPS position when there is an employee active in the position, on or after the effective date of the position being abolished. If employee is active in position when OPS position is being abolished, an error message will be presented.
<b>Non-Working Period Message on Timesheet – Change Warning Message to Informational Message</b> <a href="#">(11/27/10 Release)</a>	With this release, when an employee enters time on the timesheet on a non-scheduled workday, the employee receives an informational message. Once the "save" or "submit for approval" button is selected, the informational message will be presented and the hours entered on the timesheet will be saved/submitted.  Prior to this release, the employee received a warning message, and the hours entered on the timesheet were not saved/submitted until the "save" or "submit for approval" button was selected a second time.
<b>Negative Timesheet Entries – Remove Ability to Make Negative Entries on Timesheet</b> <a href="#">(11/27/10 Release)</a>	Prevent employees from entering negative hours on the timesheet.
